§ Formax

CATEGORY: Document Printing Software
PRODUCT: MailDoc Software Suite
COMPANY: Formax, 1 Education Way, Dover, NH 03820. Email: cmacneil@formax.com. Phone: 800-232-5535.
DESCRIPTION: Formax MailDoc is a powerful easy-to-use tool that generates Optical Mark Recognition (OMR), Barcode Recognition (BCR) or 2D Barcode marks directly on documents for intelligent inserting of varying multi-page documents such as invoices and statements. MailDoc reduces costs by sorting through unprinted documents and collating together any that are intended for the same recipients so they are sent in the same envelope. MailDoc can also convert traditional simplex printed documents to duplex printing to fully duplicate paper costs and provide powerful postage savings. The optional Postal Module further increases savings by running addresses through CASS, PAVE list management software with the use of NCOA for list certification.

CONTACT: For more information, call 800-232-5535 or email cmacneil@formax.com.

§ Neopost USA

CATEGORY: Document Printing Software
PRODUCT: OMS-100, DocuTransfer (powered by Krengeltech) and GMC Inspire Software
COMPANY: Neopost USA, 478 Wheelers Farms Rd., Milford, CT 06460. Phone: 800-NEOPOST (636-7678).
NEOPOST OUTPUT MANAGEMENT: The Output Management portfolio of software offered by Neopost is smart software that automates and enhances the preparation, processing, output and delivery of business-critical communications. OMS solutions range from simple-to-use standalone barcoding software up to fully integrated mail piece production automation, postal optimization, document formatting, and document creation software solutions.
OMS-100: Provides enhanced automation, integrity and mail piece personalization for mailing production runs by adding barcodes to automate folding inserting processes.
DOCUTRANSFER LITE: DocuTransfer Lite solution is an easy-to-use software package which brings the document output management process and folder/inserting systems to the next level of automation and savings while maximizing the effectiveness of communications. DocuTransfer Lite can import standard pre-formatted documents, pre-sort your communications to qualify for optimal postal rates, apply inserter control marks for enhanced security and integrity and output documents to your printer(s) in sequence.
DOCUTRANSFER PRO: DocuTransfer Pro with PlanetPress is a comprehensive solution that turns raw or pre-formatted data into professional easy-to-read customer statements, invoices, orders, receipts and management process form creation to printing, distribution, mailing and archiving. DocuTransfer Pro allows users to distribute documents any way their customers prefer - via mail, fax, email or the Web. DocuTransfer Pro’s open architecture integrates easily with legacy systems and accepts a variety of data streams.
GMC INSPIRE: GMC Inspire is an enterprise communication platform enabling your business to deliver relevant personalized messages, at the right time through the preferred channel. It includes a high performance document composition engine on a flexible platform that integrates with almost any data source. GMC Inspire’s efficient template design is optimized for multi-channel communication and boasts robust reporting capabilities to track production in real time. GMC Inspire will help decrease costs, increase operational efficiencies and improve customer satisfaction.
