

# Postage Meters/Mailing Systems

concerns users may have, ensuring they sustain maximum uptime.

**neoFUNDS APP:** Provides the flexibility and convenience of funding iMeter with a "download now, pay later" neoFunds postage financing plan. Add postage dollars to one's iMeter with the click of a button. Instead of pre-funding the postage account, users will receive a monthly invoice for actual postage dollars that have been downloaded.

**LOW INK EMAIL ALERTS APP:** Notify users when it is time to re-order ink. The online server monitors ink supply.

## § Pitney Bowes Inc.

**CATEGORY:** Postage Meters / Mailing Systems

**PRODUCT:** DM Series Mailing Systems

**COMPANY:** Pitney Bowes, World Headquarters, Stamford, CT 06926-0700. Phone: 800-672-6937.

**DM INFINITY SERIES DIGITAL MAILING SYSTEM:** The DM Infinity Series is the first USPS-approved high-speed digital metering solution for the production mail environment, metering mail up to 26,000 mail pieces per hour. Everything about the DM Infinity Series Digital Mailing System is designed to make high-volume mailings more powerful, productive and profitable than ever before. The DM Infinity can lower postage costs for mixed-weight mail with Weigh-On-The-Fly, increase throughput by 5 - 20% with faster speeds and fewer jams, reduce return mail costs through improved print quality, enable easier postage reconciliation due to fewer outsorts, reprints and stoppages, and reduce maintenance requirements up to 66% with an innovative, reliable component design, compared to the R150. The DM Infinity Series is more than a digital meter migration mandate; it adds up to real ROI. The DM Infinity can process mixed weight mail on a single meter utilizing Reset-on-the-Fly technology and enables a shorter footprint on new Pitney Bowes inserter systems. It is easy to use and offers plug and play replacement for production mailers' existing R150/6500 meters. The Infinity's patented dual print heads and ink cartridges provide virtually non-stop printing and a "no-mess" environment. It also offers the ability to print ad slogans, images and postal inscriptions on the indicia, which can help readability rates and support marketing efforts. The DM Infinity is the first meter to print a black indicia that is crisp and easy to read and the patented, fast-drying ink will not smudge at the highest processing speeds.

**DM100 Digital Mailing System**

**THE DM100 DIGITAL MAILING SYSTEM:** A compact, whisper-quiet, semi-automatic system, designed for low-volume applications, processing mail at speeds of up to 30 pieces per minute. With postage tapes, mail flats, parcels, oversized packages, Prior-

ity Mail, even Express Mail. Get additional functionality with the Time and Date Stamp capability.

**DM200 DIGITAL MAILING SYSTEM:** A whisper-quiet, semi-automatic mailing system that processes mail at speeds of up to 40 pieces

**DM200 Digital Mailing System**

per minute. The integrated design allows for the weighing platform and versatile functionality to fit in a compact footprint. With postage tapes, the DM200 handles flats, parcels, oversized packages, Priority Mail and even Express Mail. Get additional functionality with the Time and Date Stamp and departmental accounting capability.

**DM300 DIGITAL MAILING SYSTEM:** A quietly efficient, semi-automatic system designed for low to mid-volume mailers. The DM300 processes mail at speeds of up to 65 pieces per minute. Integrated QWERTY keyboard makes processing International mail or programming the standard accounting functionality fast and easy. The space-saving integrated scale design is conveniently located to handle mail and parcels of different weights and sizes. Easily apply postage for oversized flats and parcels with the built-in, automatic strip tape feeder. Get dual functionality with the Time and Date Stamp capability for incoming mail.

**DM300 Digital Mailing System**

**DM400 DIGITAL MAILING SYSTEM:** A streamlined solution that provides performance and easy operation making it the perfect choice to improve productivity in a wide variety of office environments. The DM400 offers automatic feeding and processes mail at speeds of up to 120 pieces per minute. QWERTY keyboard, integrated scale, accounting feature Time and Date Stamp and built-in tape strip feeder add to the productivity of this solution.

**Pitney Bowes DM400/DM450 Digital Mailing System**

**DM475 DIGITAL MAILING SYSTEM:** The DM475 is an ideal mid-volume mailing solution. It's an excellent starting-point when one's business needs in-line weighing, dimensioning, and rating to process mixed weight and sized mail. It automatically feeds, seals and imprints correct postage, operates at speeds up to 120 letters per minute, up to 80 LPM in WOW mode, and handles a variety of materials up

to 5/16" thick and sizes ranging from postcards to 13" x 15" flats. Weigh on the Weigh Technology is standard on the DM475 and its color graphics display and qwerty keyboard is great for fast and easy operation. Convenient features include the ability to replenish postage 24/7, automatic rate change updates, online access to USPS Special Services including Delivery Confirmation, Signature Confirmation and Electronic Return Receipt. Additional features include the ability to track up to 50 postage accounts, print or export data to PC, save up to 5% on postage with access to USPS Commercial Base Rates for Express Mail and Priority Mail, access to My Account -- track meter activity pay bills, and order supplies through Pitney Bowes online.

### **Connect+ Series:**

**CONNECT+ 1000:** This economical mid-volume mailing system is the first of its kind that can print targeted marketing or sales messages across the top of an envelope. With two integrated printers, users can

print postal indicia and inscriptions in black or red, and choose black or 4-process color to print graphics, logos and messages on envelopes. No more buying, printing and storing custom envelopes when users can print their own as they go. It offers a full range of non-WOW interfaced weighing options up to 149 lbs, with processing speeds up to 180 letters per minute. With an easy-to-use, intuitive color touch-screen interface, users can quickly and easily access all of their printing and mailing applications, making their operation run like clockwork.

**CONNECT+ 2000:** A powerhouse of productivity designed for the mid- to high-capacity mailroom, this mailing system offers great flexibility. It's simple to learn and operate with its intuitive color touch-screen user interface and application based navigation. With Weigh-on-the-Weigh technology, users can weigh and process mixed-sized mail in a single pass at speeds up to 110 letters per minute or 180 in non-WOW. Users can also simultaneously print marketing messages and postal indicia with printing modules in black or optional 4-process color. The Connect+ 2000 also enables users to download software updates, send reports, check postage rates and get support, right on the machine, giving a high level of operator flexibility.

**CONNECT+ 3000:** This high-powered production system is the fastest of its kind and can produce up to 300 letters per minute. With its 4-process color capabilities, it prints custom envelopes with transpromotional marketing messages on demand, making every envelope an opportunity to generate revenue. It's easy to use and maintain with an intuitive color touch-screen display and icons, application-based navigation and Web connectivity. The Web-based architecture allows for high-speed transfer of data and information directly to and from one's system. Program an unlimited amount of jobs, effectively manage postage funds, verify addresses, track packages and more directly from the system. The Connect+ 3000 offers high-capacity options such as a Drop or Power Stacker, 15" Touch-screen Display, Shape Based Ratering capabilities, Barcode Scanner and External Report Printer to help make one's operation operate at peak capacity.

### **Postal & Shipping Payments:**

**PURCHASE POWER:** Pitney Bowes Purchase Power Account provides guaranteed access to postage. The Purchase Power Account simplifies the way customers pay for postage by eliminating the need to pre-pay. Customers receive a consolidated monthly statement that contains all the detail for postage, meter supplies and shipping.

**EASYPERMITPOSTAGE:** EasyPermitPostage streamlines and simplifies the permit and bulk postage payments process, while eliminating the need to pay in advance for permit postage. Customers mail as they do today -- Pitney Bowes pays the USPS and bills the customer.

**BUSINESS ESSENTIALS ACCOUNT:** With the Business Essentials Account customers can receive just one simple monthly bill from Pitney Bowes for day-to-day office expenses. Linked directly to a customer's Purchase Power account, it allows key employees to handle incidental office purchases, such as photocopying, office supplies, and overnight shipping, but gives the customer control of spending limits, who can use the card, and where the Business Essentials account can be used. Users can even update their accounts with retailers so that the retailers automatically bill the users' Purchase Power account.

### **Value Added Services:**

**DM SERIES CONFIRMATION SERVICES:** DM Series mailing system with Intellilink technology is the first mailing system technology that gives users electronic access to USPS Special Services right from their mail center. Confirmation Services provides the mailer-discounted USPS special services and delivery information for: Delivery

## Postage Meters

Confirmation, Signature Confirmation and Electronic Filing on Certified Mail. Mailer can access consolidated delivery information through [www.pb.com/myaccount](http://www.pb.com/myaccount). Available on the DM Series mailing machines DM100 through DM1100.

**ELECTRONIC RETURN RECEIPT:** Certified Mail is a critical communication tool for organizations that need proof of delivery such as law offices, insurance companies, accounting firms, and government agencies. This is an exclusive service that replaces the traditional "Green Card" hard copy return receipts for certified mail users with an electronic return receipt. For mailers that frequently use Certified Mail, this service: gets additional savings for using electronic return receipt (mandated by USPS), eliminates manual completion of green cards, eliminates need to file or store hard copy "Green Card" return receipts. Obtain easy access of electronic return receipts 24/7 online on [www.pb.com/myaccount](http://www.pb.com/myaccount), and information is retained for seven years. Available optionally on the DM Series mailing machine.

**CONSTANT CONNECTION:** Traditionally, the analog modem was seen as the best solution to provide the link between the Pitney Bowes Intellilink Control Center and the customer site. With the industry technology trends moving towards a digital environment, Pitney Bowes is offering a high-speed connectivity option: Constant Connection. This service provides faster transmission speed, convenient "Plug and Play" option using the customer's network connection, and eliminates wiring of analog line to the DM Series Mailing System. Available optionally on the DM Series mailing machine.

**MY ACCOUNT ON PB.COM:** Consolidated Online Information on the customer's mailstream, systems and solutions with 24/7 access to account information through integration. My Account allows customers to: obtain USPS delivery tracking detail, manage Postage by Phone account balance and Postal Payment Solution Accounts, request equipment service, arrange for on-site training, and shop for supplies and manage equipment inventory.

**POSTAGE DISCOUNT PROGRAM:** This service offers small-volume mailers additional savings for presorting using the U.S. Postal Service workshare program. This service provides users: special USPS-approved presort rate without presorting their mail; improved deliverability of mail and meeting the USPS Move Update requirements automatically; getting mail deeper into the mailstream and through the postal network faster; manage resources and postal budgets more effectively, and eliminates processing steps and improves service of the mail piece. This service is available for all existing Pitney Bowes customers.
