Tabbing Systems

and setup. The KR 435 handles large 16"-diameter rolls and runs all major types of tabs as well as pressure-sensitive stamps and labels of various shapes and sizes. Multiple tabs or labels can be applied in a single pass. The KR 435 runs in line with most standard addressing systems.

KR 565 LABEL SPlicing UNIT: Designed to provide nonstop, uninterrupted labeling when used with Kirk-Rudy tabbers. The continuous feed dual unwind acts as a stand-alone standard loose-loop powered unwind unit. When the supply roll unwinds to a certain level, a sensor activates a warning light and signals the drive to feed the remaining labels into a holding bin. The second roll of labels is then spliced to the end of the web as the labels in the bin are consumed.

§ Neopost USA

CATEGORY: Tabbing Systems

PRODUCT: TA-12, TA-20, TA-25, TA-30

COMPANY: Neopost USA, 478 Wheelers Farms Rd., Milford, CT 06461. Phone: 800-NEOPOST (636-7678).

TA-12: Neopost’s TA-12 tabber offers an inexpensive alternative to envelopes and is great for mass mailings of brochures, newsletters, double postcards and more. The TA-12 places an adhesive tab on folded documents, often used by businesses to send advertisements and envelopes is great for mass mailings of brochures, newsletters, envelopes, double postcards and more. Its built-in feeder system means easy setup and fewer feeding issues, and its small, tabletop footprint makes it the perfect assistant for letter shops and in-house use.

TA-20: The TA-20 tabletop tabbing system is fast and reliable, enabling users to place up to three tabs in a single pass — at speeds up to 20,000 pieces per hour. Perfect for processing mass mailings of brochures, newsletters, double postcards and more. Neopost’s TA-20 lets Neopost’s TA-20 lets users tab or stamp quickly and cost-effectively. It is ideal for mid- to high-volume tabbing and direct mail preparation in commercial printers, in-house production shops and organizations that process mass mailings.

TA-25 MULTI-SIDE TABBER: The TA-25 Multi-Side Tabber is the only tabletop tabber in the world that will simultaneously apply tabs to the top and side of a booklet or self-mailer. It can also apply tabs to opposite sides of a mailer in one pass (like the new letter-size booklet requirements). The secret is in a magnificent piece of engineering that allows one of the tab application heads to switch from side tabbing to front tabbing. The TA-25 has the ability to single, double and triple tab. It can run clear, translucent, or paper tabs or apply up to three USPS stamps at a time. The TA-25 offers production single tabbing speeds of 25,000 pieces/hr and booklet tabbing (2+1, side-to-side) at 15,000 pieces/hr on media up to 1/4" thick. Best of all, the TA-25 runs in-line with Neopost’s AS-980 inkjet address printer and heavy-duty AS-FDR12 feeder. The intelligent interface ties the components together for maximum control and productivity.

TA-30: Neopost’s exclusive TA-30 heavy-duty tabletop production tabbing system, with high-volume production cycles, is versatile and efficient, allowing users to place one, two or three tabs in a single pass — at speeds up to 35,000 pieces per hour. Neopost’s TA-30 is ideal for processing mass mailings such as brochures, newsletters, double postcards and more. Neopost’s TA-30 lets users tab, stamp, label or apply repositionable notes quickly and cost-effectively. That makes the TA-30 the ultimate machine for high volume tabbing and direct mail preparation in lettershops, mail houses, commercial printers and organizations processing mass mailings.
