

Tray Processing Systems

Wrapping/Polybag Systems

Mail Automation Inc. PostalOne TMS

§ Mail Automation, Inc.

CATEGORY: Tray Processing Systems/Accessories

PRODUCT: PostalOne® TMS

COMPANY: Mail Automation, Inc., 310 Baltimore-Somerset Rd, Baltimore, OH 43105. Phone: 844-808-5454.

DESCRIPTION: The PostalOne® System provides the capability to scan bar code labels, weigh mail trays and tubs, and print Dispatch & Receipt (D&R) labels for manual or automatic application (depending on configuration). D&R labels are created based on information exchanges through a USPS Transaction Concentrator (TC). PostalOne is designed for reliability and ease of use, while maintaining a low cost. PostalOne is available in Automated, Semi-Automated and Tabletop versions.

SORTER TRAY RACKS: Mail sorter tray racks help mail operations speed mail processing. MAI offers customized sorter tray racks including fixed drawer, shelf-style, pull-out drawer, and pull-out shelf configurations. Design, engineering, and implementation services available.

CONTACT: For more information, call 844-808-5454, email: Bob@MailAutomationInc.com, or visit www.MailAutomationInc.com.

T-375 Bagger/Printer

§ Advanced Poly-Packaging, Inc.

CATEGORY: Wrapping/Polybag Systems

PRODUCT: T-375 Tabletop Bagger/Printer

COMPANY: Advanced Poly-Packaging, 1331 Emmitt Road, Akron, OH 44306. Email: sales@advancedpoly.com. Phone: 800-754-4403.

T-375 TABLETOP BAGGER/ PRINTER: Place product into open bag, then press the seal bar or let the T-375 automatically seal the bag. This machine features patented "Next Bag Out" capabilities. It allows for printing just prior to loading, which guarantees accurate labeling and allows for quick changeovers, something mail order need with constant label changes.

FEATURES: Full-color screen with pop-up windows, diagnostic and trouble shooting screens, preset and bag counter, automatic "paced" operation with fill time delay timer, adjustable parts chute, adjustable support shelf and blower with flow controls. It comes with a Zebra 110 Xill Plus Printer, 203 dpi, 305 dpi option with built-in memory and 30 darkness settings. Create labels from a spreadsheet, upload to this mini-system, and let the T-375 Bagger/Printer do the rest.

T-1000 ADVANCED POLY-BAGGER: The T-1000 is a production bagger that can be used alone or attached to other components, such as conveyors, parts counters or scales to create a larger packaging system. Fill and seal up to 100 bags per minute. The T-1000

T-1000

Advanced Poly-Bagger is an ideal choice for hundreds of products including magazines, product manuals, promotional items, novelties or any mail order products.

FEATURES: Patented "Next Bag Out" printing capability is now available on the T-1000. That means the bag that's being printed is the next one to be filled, virtually eliminating mislabeled bags. Perfect for label changes where the label changes with almost every bag. Full color touch screen programming makes it simple for operators to use. The T-1000 accepts bags ranging from 2" x 3" to 14" x 30". The Wide model uses bags from 4" x 6" to 18" x 36". Numerous custom options available.

T-1000H HORIZONTAL: The T-1000H is a horizontal version of the T1000 machine that comes with a conveyor, allowing the operator to slide product horizontally into the bag. This method works well when packaging clothing, ball caps, and various shaped products.
