DA50S SHUTTLEHEAD ADDRESSING PRINTER: The DA50s AddressRight® envelope printer can print up to 10,000 mail pieces per

hour, optimizing performance and saving costs along the way. The printer connects easily to an existing network allowing for print job processing on any computer. Print almost anywhere on the envelope using shuttle head technology and reap the benefits of handling multiple layouts without having to change the printer setup. The DA50s printer handles multiple media sizes up to 1/8" thick,

prints in three print qualities, and comes standard with our Envelope Design tool, which allows you to create your own design and view the envelope on screen. It is also small enough to fit in an office or mailroom environment. Use the DA50s in tandem with one of our mail management software solutions ConnectRight™ Mailer to help you cleanse your address list ensuring delivery to your target customer and take advantage of pre-sort discounts.

DA70S SHUTTLEHEAD ADDRESSING PRINTER: The DA70s AddressRight® envelope printer can print up to 14,000 mail pieces per hour, optimizing performance and saving costs along the way. The printer connects easily to an existing network allowing for print job processing on any computer.

Print almost anywhere on the envelope using shuttle head technology and reap the benefits of handling multiple layouts without having to change the printer setup. The DA70s printer handles multiple media sizes up to 1/4" thick, prints in three print qualities, and comes standard with our Envelope Design tool,

which allows you to create your own design and view the envelope on screen. It is also small enough to fit in an office or mailroom environment. Use the DA70s in tandem with one of our mail management software solutions ConnectRight™ Mailer to help you cleanse your address list ensuring delivery to your target customer and take advantage of pre-sort discounts.

DA80F FIXED HEAD ADDRESSING PRINTER: Designed for frequent mailers, the DA80f AddressRight® fixed-head envelope printer delivers optimum performance and dependability. Printing up to 22,000 mail pieces per hour, the DA80f can print addresses, barcodes and customized messages in one pass. The DA80f is the workhorse of address

Neopost MACH 5

technology available. It is a full process color printer that is powered by 1600 x 1600 dpi Memjet Technology and can print on materials up to 9.5" wide by 17" long at high speed. This incredible technology can also print full bleed (edge-to-edge) on materials up to 8.5" wide. How fast? Full sheets at 3,600/hr and #10 envelopes at 7,500/hr. The Neopost Mach 5 is designed to boost productivity dramatically, but it is very cost-efficient as well. The five ink tanks each hold 250 ml of ink for long job runs and keep cost per piece as low as possible. Compared to existing systems, Neopost can run 3 times longer on a set of ink tanks that cost substantially less than toner. The Mach 5 does this all without any fragile drums or fuses to replace. The no-contact print technology won't emboss envelopes and can be used with any windowed envelope — not just the costly laser-safe kind. Moreover, the company's specially formulated ink can print on coated stocks. Combined with optional mColor RIP & Workflow software, the result is professional level color control. mColor is designed just for the Mach 5 and incorporates color management tools, production job presets, hot folders and the powerful Harlequin RIP engine into a single workflow product. mColor delivers predictable and repeatable standardization of color and improves overall image output quality — the perfect complement to the Neopost Mach 5.

AS-980: The feature-rich AS-980 offers great advantages with its exceptional price, high operating speeds, innovative design, and bullet proof construction. Advantages like speeds of 34,000 postcards/hr and 26,000 #10 envelopes/hr maximize productivity. The 3" print area from three separate printheads offers exceptional layout flexibility. Neopost's vac-

Neopost AS-980

uum transport has repositionable outer transport belts and material guides for perfect registration. Powerful vacuum fans hold mail pieces via five staggered channels for even pressure. The AS-980's USB 2.0 port works seamlessly while the advanced micro processor and 64 MB of RAM rips data quickly. The electronic thickness control uses a precise servo-motor system to effortlessly set the perfect output pressure. These features combine for the best print quality possible. The AS-980 was also designed to run in-line with Neopost's TA-20, TA-25 and TA-30 high-speed tabbers as well. The intelligent interface ties components together for maximum productivity and control.

printers. The DA80f can handle media up to ¼” thick allowing for increased mail piece thickness and greater flexibility. The quick print head alignment reduces set up time by up to 80% expediting job completion time and the light mode printing offers the option to use less ink and still produce USPS-compliant

barcodes. While focused on productivity and performance this system offers spot color as well as extensive fonts and graphics to make the mail piece as creative as you want it to be. Its three fixed print heads deliver crisp precise direct-to-envelope imaging creating a professional mail piece that makes an impact.

DA95f FIXED HEAD ADDRESSING PRINTER: Rely on the DA95f AddressRight® envelope printer to provide the speed and efficiency that drives your profitability. Print up to 30,000 mail pieces per hour, the DA95f offers spot color which can help grab the attention of recipients. It handles media up to 1/2” thick allowing for increased mail piece thickness and greater flexibility, supports high speed USB communications and Ethernet allowing operators to share files and access infor-

Rollem Mailstream

§ Rollem International

CATEGORY: Address/Barcode Printers

PRODUCT: Mailstream Direct Mail Finishing System

COMPANY: Rollem International, 1650 S Lewis St., Anaheim, CA 92805-6413. Phone: 800-272-4381. Web: www.rollemusa.com/mail.

MAILSTREAM: Print, finish, and mail 10-in-one. Mailstream, a new direct mail finishing system, converts press sheets to finished mail products while maintaining zip code order. Apply 10 processes in one operation including hot, cold and fugitive glue; tear-off coupons; tip-on cards; trimming, slitting, scoring, pattern-perforations, and scratch-off labels. Mail integrity is maintained creating folded, glued products ready for delivery to mail bins. Glue closures meet USPS requirements and eliminate need for wafer seals. In-line and near-Line configurations are available.

See Rollem listing in the Die-Cutting, Document Processing, and Inserter Mailing Systems sections.

CONTACT: For more information, call 800-272-4381 or click www.rollemusa.com.
