PRODUCT: Riso ComColor® Series High Speed Printers

COMPANY: Pitney Bowes Inc., 3001 Summer Street, Stamford, CT 06926-0700. Tele: 877-682-7687. Web: PitneyBowes.com

RISO COMCOLOR® SERIES HIGH SPEED PRINTERS: Increase the productivity and efficiency of your print operation with heatless, high-speed inkjet printing. The ComColor printers combine ultra-fast printing technology with cost-effective color printing. Inkjet

Riso ComColor® Series Printers

printing technology is ideal in print-to-mail environments because pages are printed without static or paper curl. Finished documents can then be immediately processed in folding/inserting equipment without wasting time waiting for pages to cool. Specially formulated oil-based ink prints dry and is fade- and water-resistant for reliable high-quality output. Since it uses requires no heat, inkjet printing uses less energy and keeps your printing equipment running smoothly even for high-volume runs. Ultra-fast print speeds up to 160 pages per minute, without slowing for duplex printing, further boosts productivity. The ComColor's Inkjet

technology also allows you to add the engaging color that your customers want for a fraction of the cost of color toner multi-function devices. With the ComColor printers, you can make the switch from black and white to color without sacrificing your budget or productivity, since it prints color at fully rated speeds. You can even add optional accessories to add more flexibility to your finishing needs. Increase productivity and efficiency with the Riso ComColor inkjet printing technology from Pitney Bowes.

livery to mail bins. Glue closures meet USPS requirements and also eliminate the need for wafer seals. In-line and near-Line configurations are available.

APPLICATIONS: Mailstream is ideal any lettershop, mail center or office services environment, including that of banks, colleges and universities, government offices, insurance companies, and telecoms.

INSIGNIA DIE CUTTERS: The Insignia Series of die cutter

is a new class of sheet-fed rotary die cutter, ideal for producing labels, packaging, and unique mail applications. The machine is capable of die-cutting, kiss-cutting, perforating, scoring, and cut-scoring on a range of papers, plastics, magnetic material, PVC, styrene and polypropylenes up to 24 pt. in thickness. Key features include run speeds up to 5,000 sph, ease of operation and quick changeover. Insignia is available in two sizes, Insignia5 handles digital sheet sizes 20x15", and Insignia7 handles B2 size 24x30" sheets. Insignia is ideal for promotional products, garment and industrial tags and labels, shaped direct mail, photo products, pocket folders, folded cartons, stickers, and the list goes on. The flexo-magnetic dies are a simple change over from job to job and the machine is easy to operate. To meet varying application requirements, Insignia is available in either single or dual magnetic cylinder configurations. *For additional information, see Die Cutting section.*
