Interface	02-Medium	Under Review	The mailers can use Postal Wizard reports to pull these details.	Postal One! Production Returns Transactions Missing Total Pieces to EPS. Mailer can use Postal Wizard reports to pull these details.
12986	1/28/2019	1/28/2019	Scan Based Payment (SBP) - Update the mailing date for manifested package with scan received > 120 days later and into new rate case	PostalOne!	Scan Based Payment	03-High	2/3/2019	No workaround.	Scan Based Payment (SBP) - Update the mailing date for manifested package with scan received > 120 days later and into new rate case. There is no workaround, resolution date is 2/3/2019.
12962	1/22/2019	1/22/2019	Mixed-Class Co-Mail jobs with pre-price mailing dates are incorrectly throwing Arrival Date errors during finalization.	*PostalOne!*	Domestic Postage Processing	01-Low	1/27/2019	Impacted mailers should use the workaround steps as follows: 1) Enter Statement by clicking "Co-Mail ID" 2) Click on the "Confirmation Page" link in upper right corner 3) Click the "Postage Statement" link at the top left of Confirmation Page 4) Fill-in "Details" and update correct "Arrival Date" and select "Save and Continue" 5) Continue processing through completion of finalization	Mixed-Class Co-Mail jobs with pre-price mailing dates are incorrectly throwing Arrival Date errors during finalization. Initially, pre-price Mixed-Class Co-Mailings are being incorrectly evaluated as post-price Statements resulting in an Arrival Date error during finalization. **Error Text:** *Mail Arrival Date must be between 1/27/2019 and 01/31/2019.*
12957	1/18/2019	1/18/2019	Enterprise Payment System (EPS) additional Postage Statement details, line-level Postage Statement details, are not being sent for Postage Statements that have a future mailing date of January 27, 2019 or after.	*PostalOne!*	Mailing Services	02-Medium	1/27/2019	No workaround.	Enterprise Payment System (EPS) additional Postage Statement details, line-level Postage Statement details, are not being sent for Postage Statements that have a future mailing date of January 27, 2019 or after.
12954	1/17/2019	1/17/2019	Scan Based Payment customers with contract (NSA) pricing may see sampling data with different First-Class pricing than their contract price.	*PostalOne!*	Scan Basesd Payment	02-Medium	1/27/2019	No workaround. Note that incorrect prices were not charged, and will be corrected (1/27/2019) prior to the 2/11 postage assessment date.	Effective January 13, 2019, the procedure called by Scan Based Payment (SBP) to retrieve First-Class contract rates is failing to return even though a rate appears in the rate table. However, incorrect prices were not charged and will not be charged prior to the target resolution date of January 27.
12950	1/16/2019	1/16/2019	Mail Entry Invoice Assessments that need to be paid using an EPS account are failing.	*PostalOne!*	Adjustments	02-Medium	1/27/2019	To pay their assessments, impacted mailers can select an existing non-EPS Permit and resubmit. If a customer does not have an alternate permit advise them to reattempt after 1/27/19.	To pay their assessments, impacted mailers can select an existing non-EPS Permit and resubmit. If a customer does not have an alternate permit advise them to reattempt after 1/27/19.
12932	1/14/2019	1/14/2019	Mail.dat - System error on .mcr file	*PostalOne!*	Mail.dat & Mail.XML	03-High	1/27/2019	Impacted mailers should contact the Help Desk, who will route them to the Tier 1 Application Support group. Application Support will provide mailers with the file (.jar) needed to correct this issue. Steps: 1) Extract the .jar file from the .zip file provided by Application Support 2) Navigate to MDRClient installation 3) Go to ./lib 4) Replace MDRValidation.jar with new .jar file provided	Mail.dat validation will be updated to correct a system error currently being generated during validation of files with the extension ".mcr".
