§ Dynaric, Inc.

CATEGORY: Mailing Supplies/Accessories

PRODUCT: Dynaric Strapping Supplies

COMPANY: Dynaric, Inc., 5740 Bayside Road, Virginia Beach, VA 23455. Tele: (800) 526-0827 Fax: 757-363-8016. Contact: Marc Banks Web: www.dynaric.com Email: order@dynaric.com

CUSTOM PRINTED STRAP: Dynaric custom printed strap is high-quality, machine-grade strapping that our competitors wish they

Custom Printed Strap

could duplicate. Our plastic strap can be custom printed with your company logo, name, information, or message. This provides a great marketing opportunity that travels wherever your products go. Especially for products that do not use external packaging - such as compressed bundles - printed strap is the economical solution to mark your product with a company name or slogan. Using custom printed strap makes your packages unique and recognizable. Customized strapping also offers a layer of security since it is easy to tell if your secured packages have been tampered with and re-strapped by someone else. Printing is available on 6mm up to 15.5mm strapping.

RECYCLED PP STRAPPING MATERIAL: Dynaric is the industry's leading provider of polypropylene or "pp" strapping and offers a range of products made from recycled material. These high-performance polypropylene strap products are manufactured from high-quality polypropylene resin - a versatile and economic polyolefin with excellent tenacity and recovery characteristics.

STANDARD ELONGATION PACKAGING STRAP: Dynaric offers a full line of high-quality machine-grade standard elongation packaging strap. Our plastic strapping is manufactured using top-grade polypropylene resin with excellent tenacity and recovery characteristics.

XL COILS FOR PLASTIC STRAPPING MACHINES: Dynaric extra-large coils for plastic strapping machines are the envy of all strap manufacturers. The reason? Because of the tremendous value that XL Coil brings to our customers. Our XL coils deliver 30% more strap than standard coils used in plastic strapping machines. This extra footage translates into fewer coil changes, more production time, and reduced cost.

CONTROLLED ELONGATION STRAPPING/BANDING: Controlled elongation polypropylene strapping/banding options from

Mailing Supplies/Accessories

Dynaric are an excellent replacement for costly polyester strapping. Our low elongation products are highly resistant to impact and have superior break strength. In fact, this strap provides elongation properties similar to high-cost polyester strapping.

ULTRABAND PLASTIC STRAPPING MATERIAL: Dynaric's Ultraband ultra-low elongation plastic strapping material offers a practical replacement for steel in many strapping applications. Plastic-based strapping can save you up to 50% on just strap cost alone and will not stain or damage your products like steel strapping.

HIGH QUALITY POLYPROPYLENE STRAP: Our plastic strapping (manufactured from high quality polypropylene resin) is a versatile and economic polyolefin with excellent tenacity and recovery characteristics. Polypropylene is the most common choice for man-made fiber applications. It's wide range of processing properties make it a superior choice for plastic strapping in all applications.

See Dynaric's listing in the *Strapping Systems* section.
