Document Software

§ BUSKRO LTD.

CATEGORY: Document Software

PRODUCT: Compose IQ Software

COMPANY: Buskro LTD., 1738 Orangebrook Court – Unit # 1, Pickering, ON L1W 3G8 Canada. Key Contact: Michelle Sanz / Shawn Caldwell. Phone: 888-828-7576.

COMPOSE IQ SOFTWARE: Buskro inkjet controllers come equipped with Buskro's Compose IQ software package. The easy-to-use, Windows-based WYSIWYG interface and its powerful layout editor allows the user to fully customize their print job quickly and easily. Compose IQ also features advanced functions for matched mail (read and print), master/slave, post print verification, production audit reporting, real time multi-zone tracking, and is easily integrated with reading devices such as camera systems, barcode readers and magnetic stripe readers to increase personalization and integrity. Buskro's unique one-to-one data relationship allows its tracking system to follow products over multiple transport zones in real time without the use of data buffers. This provides greater integrity and minimizes the risk of mismatches.

FEATURES: Compose IQ can accept data in virtually any format and can utilize any true type font. All commonly used barcodes are built into Compose IQ including the USPS IMB and advanced 2D barcodes. Several graphic formats are supported by Compose IQ including bitmap, jpeg, wmf, tiff and pdf. Users can produce a pdf proof from the layout editor.

CONTACT: For more information, call 888-8BUSKRO or email sales@buskro.com.

§ Pitney Bowes Inc.

PRODUCT: Relay® Hub

COMPANY: Pitney Bowes Inc., 3001 Summer Street, Stamford, CT 06926-0700. Tele: 877-682-7687. Web: PitneyBowes.com

RELAY® HUB: The Relay Hub, from the Pitney Bowes Commerce Cloud, lets you enhance your critical customer documents to reduce mail-

Document Software

ing costs, improve customer engagement and increase paperless adoption. The Relay Hub is a SaaS solution that leverages the proven enterprise software with the scalability of AWS to deliver powerful digital document management. Decrease mailing costs by correcting address data, presorting mail, and adding barcodes precise automated folding and inserting. Leveraging the power of SaaS and a simple print drive, Relay Hub also allows businesses to easily centralize and control customer communications from anywhere to capitalize on their existing mailing investments. Working with outputs from your existing systems, you get the flexibility to modernize your documents with color and updated branding to make communications easier to understand and faster to respond to. Increase paperless by easily transitioning printed documents to digital sending, like email, while keeping document design intact for a seamless customer experience across channels.

CONTACT: For more information call 877-682-7687 or visit Pitney Bowes at PitneyBowes.com.

§ QUADIENT

CATEGORY: Document Software

PRODUCT: Quadient Impress Platform and Inspire Software

COMPANY: QUADIENT, 478 Wheelers Farms Rd., Milford, CT 06461. Phone: 800-636-7678.

QUADIENT OUTPUT MANAGEMENT: Quadient's output management solutions allow users to manage important customer communications easily and securely in different media, while providing a pathway so businesses can communicate according to their customers delivery preference and easily evolve from paper-based communications to digital delivery. The Output Management portfolio of on-premise software and cloud-based solutions offered by Quadient automates and enhances the preparation, processing, output and delivery of business-critical communications through the Quadient Impress Platform. The Impress Platform increases operational efficiencies and centralizes the document preparation process, helping to ensure that content is sent to the right person, at the right time through the customer's preferred channel. Users can add specific marketing messages to their business-critical customer communications and incorporate business rules such as merging multiple documents into a single envelope, allowing for increased marketing opportunities and savings on printing and postal costs. The Quadient Impress Platform also integrates with unique and powerful Web-based plug-ins that enable businesses to save postage with presort capabilities, ensure the integrity of their customer contact data, centralize and track the processing of Certified Mail, manage their recipients' delivery preference and more.

Quadient Impress Platform: A multi-channel outbound document automation platform that automates the sending of business-critical customer communications. Four core applications operate on the award-winning Quadient Impress platform, providing businesses the highest level of performance and scalability. Within the Impress Platform each application can work independently or seamlessly integrate with each other for maximum flexibility.

Impress Automate: Powerful document automation tool that manages customer-specific business rules to streamline output for print, digital and outsourced channels.

Impress Portal: Secure document delivery portal that provides recipients access to business documents through a unique branded digital channel.

Impress Dispatch: Desktop mail application that enables business users to automate the preparation of ad hoc communications and send to a centralized mail production center or customer portal.
