

Mail Accounting Systems

§ Pitney Bowes Inc.

CATEGORY: Mail Accounting Systems

PRODUCT: INVIEW Analytics; Business Manager

COMPANY: Pitney Bowes Inc., 3001 Summer Street, Stamford, CT 06926-0700. Tele: 877-682-7687. Web: PitneyBowes.com

INVIEW™ ANALYTICS: INVIEW Analytics is a scalable, web-hosted application to help business mailers of all sizes control and report on postage spending. With it, you can seamlessly link your postage meters to a secure online account that consolidates information from multiple systems including postage spend, piece counts, class and extra services. INVIEW Analytics is made up of two powerful management tools that work together to provide real-time postal usage and expense information. Total Postage Management is a financial management tool allowing you to centrally fund, finance and report. The meter reporting tool consolidates postage spend across two or more sites, enabling you to track daily or monthly spend by location or cost accounts.

INVIEW Analytics

BUSINESS MANAGER HOST ACCOUNTING: Business Manager is a PC-based information management system for your enterprise that links multiple mailing and shipping systems, at one or multiple sites, in a centrally controlled network. This system consolidates raw mailing and shipping data and summarizes it in formats you can use including analyzing expenditures, highlight potential cost reductions, and export data to back office financial systems. Business Manager connects to both your Pitney Bowes mailing systems and console inserting systems for consolidated, active reporting of production runs.
