SENDPRO® ONLINE SOFTWARE: SendPro® is cloud-based software that lets you send mail and manage multi-carrier shipments from one portal. Use SendPro as a desktop application for one or multiple users and now, one or more locations - the perfect complement to your postage meter for shipping packages. With SendPro, you can compare mailing and shipping options to achieve the best savings for US Postal Service packages or shipments with other carriers. This solution has an ultra-easy interface that simplifies the shipping process. With one address book, users can pull recipient information and print compliant shipping labels. SendPro also gives you one-click access to account history for easy expense control and active monitoring of your shipments.

PITNEY BOWES SENDPRO® C LITE AND SENDPRO® C: Eliminate trips to the post office with our easy to use solution for USPS® office mailing and small package shipping. Quickly print discounted postage and seal envelopes at speeds up to 65 letters per minute. Accurately weigh small packages with integrated 5 pound scale to ensure you always pay the right rate. Integrated, pre-loaded apps let you track the status of shipments, deliveries and postage spend across multiple departments. Included access to SendPro Online allows you to mail and ship via USPS from any computer anytime, anywhere.

SENDPRO®+: There's a better way to ship with our easy to use, all-in-one sending technology for multi-carrier shipping and mailing.

Pitney Bowes SendPro® C Lite and SendPro® C

Pitney Bowes SendPro+

Pitney Bowes Send Pro C Auto

Easily compare rates across the three major carrier (USPS®, UPS® and FedEx®) and accurately weigh packages with integrated 15 pound scale to ensure you always pay the right amount. Quickly print discounted postage and seal envelopes at speeds up to 65 letters per minute. Integrated, pre-loaded apps let you track the status of shipments, deliveries and spend across multiple departments. Included access to SendPro Online allows you to mail and ship across all three major carriers from any computer anytime, anywhere.

SENDPRO® C AUTO: Simplify your batch mailing and shipping quickly and easily with the automatic SendPro® C Auto. Process and seal mail batches up to 120 letters per minute, and up to 5/16" thick, with the automatic feeder. Smoothly feed your mail with our reverse separation technology. Apply postage to larger flats and letters easily with the included strip tape dispenser and meet the latest USPS® IMI compliance rules. Send large envelopes, Priority Mail® and packages with confidence too. Mail and print labels with the optional printer. Accurately weigh packages up to 15 pounds with the integrated digital scale. Use the built-in address verification feature to reduce costly address correction fees and improve your delivery success rate. Easily compare rates across multiple carriers — USPS®, UPS® and FedEx® and get pre-negotiated discounted carrier rates with the optional multicarrier subscription.

SENDPRO® MAILSTATION: The new, modern SendPro® Mailstation is the first-ever cloud-based, digitally-connected sending solution that is designed to simplify low-volume mailing. Plus, you can print postage from the convenience of a small device within your office or home setting, without ever leaving to go to the Post Office. Easily read options from the large, bright, full-color touchscreen, get automatic rate change updates with built-in internet connectivity, use

Postage Meters/Mailing Systems

Pitney Bowes SendPro Mailstation

included SendPro Online software to print stamps or labels from your computer, automatically save on USPS® sending, weigh mail up to 5 pounds with digital scale, refill your postage instantly and more.

SENDPRO® P SERIES MAILING & SHIPPING SYSTEMS: The SendPro P Series simplifies the process of mailing, shipping and receiving by integrating all three applications into a single comprehensive system. For letter mail, the system will seal and print postage for your short and longer runs at reliably high speeds. Each system handles thin or thick mail as well as small or large envelopes. For packages, the P Series takes away guesswork by allowing you to review services provided by USPS and the major carriers. Now, you can get your packages delivered with the best cost and delivery options available. With the integrated receiving application, you can accurately log all of your incoming packages' information so that you have an accurate history of every package that has been delivered to your office. Pitney Bowes offers 4 SendPro P Series models for mailers of all sizes: P1000, P1500, P2000, and P3000.

SENDPRO™ P1000: This economical mid-volume mailing and shipping system is the first of its kind that can print targeted marketing or sales messages across the top of an envelope. With two integrated printers, users can print postal indicia and inscriptions in black or red, and choose black or 4-process color to print graphics, logos and messages on envelopes. No more buying, printing and storing custom envelopes when users can print their own as they go. The SendPro P1000 simplifies operations by integrating a shipping label printer. It offers a full range of non-WOW interfaced weighing options over 70 lbs., with processing speeds of up to 180 letters per minute. With an easy-to-use, intuitive color touch-screen interface, users can quickly and easily access all of their printing and mailing applications, making their operation run like clockwork.

SENDPRO® P2000: Like the P1500, this system offers all the advantages of Weigh-on-the-Way™ (or WOW). The P2000 is an even faster solution that can weigh and process mixed-sized mail up to 5/8" thick in a single pass at speeds of up to 110 letters per minute or 180 in the non-WOW mode. A powerhouse of productivity designed for the mid-sized mail area, this system offers great flexibility. It's simple to learn and operate with its intuitive color touchscreen user interface and application based navigation. Users can also simultaneously print marketing messages and postal indicia with printing modules in black or optional 4-process color. The SendPro P2000 also enables users to download software updates, send reports, check postage rates and get support, right on the machine, giving a high level of operator flexibility.

Pitney Bowes SendPro P1000 Mailing & Shipping System

Pitney Bowes SendPro P2000 Mailing & Shipping System

Pitney Bowes SendPro P3000 Mailing & Shipping System

SENDPRO® P3000: This high-powered production system is the fastest of its kind and can produce up to 310 letters per minute. With its 4-process color capabilities, it prints custom envelopes with transpromotional marketing messages on demand, making every envelope an opportunity to generate revenue. It's easy to use and maintain with an intuitive color touch-screen display and icons, application-based navigation and web connectivity. The web-based architecture allows for high-speed transfer of data and information directly to and from one system. Program an unlimited amount of jobs, effectively manage postage funds, verify addresses, track packages and more, directly from one system. The SendPro 3000 offers high capacity options such as a Drop or Power Stacker, 15" Touch-screen Display, Shape Based Rating capabilities, Barcode Scanner and External Report Printer to help make you operate at peak capacity.
