

Parcel/Mailbox Lockers

Packcity Intelligent Parcel Lockers

§ QUADIENT

CATEGORY: Parcel/Mailbox Lockers

PRODUCT: Packcity Intelligent Parcel Lockers

COMPANY: Quadient, 478 Wheelers Farm Rd., Milford, CT 06461. Phone: 800-636-7678.

DESCRIPTION: Packcity Intelligent Parcel Lockers are an automated electronic locker system that securely stores packages for easy consumer retrieval. They are the most convenient solution for customer deliveries at universities, corporations and other locations and make it easier for people to pick up packages on their schedule.

Step 1 - Place package into the locker. Recipient notified of delivery via email/SMS.

Step 2 - Recipient enters one-time PIN code.

Step 3 - Package retrieved.

HOW IT WORKS: Having Packcity intelligent lockers alleviates crowded mailrooms and eliminates multiple delivery attempts. Consumers can pick up packages on their time — anytime. A delivery notification is sent via text or email when the parcel arrives. The recipient enters their one-time PIN code, the door opens for recipient to grab their parcel and go.

FEATURES: Packcity Parcel Lockers offer total security of packages and risk reduction of lost packages; complete tracking and accountability with a log of every package drop off and pick up – 100% chain of custody; reduction of labor and time with fewer resources required to deliver packages to lockers only and not having to drop off at every desk, station, etc. (labor savings can justify cost of system); eliminates the need for multiple deliveries and re-delivery attempts; signature no longer required, electronic log record alleviates this; 24/7 convenient access; your choice of email or text notification to receive passcode.

Parcel Mailing/Sorting Systems

BÖWE SYSTEC OptiSorter Parcel and Package Sorting Solutions

§ BÖWE SYSTEC North America Inc.

CATEGORY: Parcel Mailing/Sorting Systems

PRODUCT: OptiSorterPush-tray and Split-tray

COMPANY: BÖWE SYSTEC North America Inc., 8480 Honeycutt Rd, Ste 200, Raleigh, NC 27615, (919) 714-7277 or email address: Generalinquiries@bowesystecinc.com

TRAY SORTING SOLUTIONS: BÖWE SYSTEC's OptiSorter Parcel and Package Sorting solutions address the complexities and demanding requirements of the package, parcel and logistics sector with material handling automation, weighing, scanning, dimensioning, print/apply labeling and sorting for a variety of industries including, Postal and Parcel sortation and e-commerce logistics. The solutions are designed to handle a wide variety of product types and dimensions with systems that are fast, flexible, and scalable to match operational objectives. The unique pusher tray technology is designed for sorting a large range of different product sizes and shapes including parcels, poly bags, cartons, books, multimedia, containers, apparel, shoes, and agricultural items. It enables the sortation of items as small as 1/16" thick and as large as 70 lbs. with throughputs of up to 15,000 trays per hour.

FEATURES: The modular design allows for customized sorter layouts to optimize floor space and workflows including elliptical and straight-line, single and multi-level, and dog leg configurations. The number of chutes is unlimited with multi-directional sortation available to minimize floor space requirements. The sorters are available with manual and automatic induction to maximize productivity and the robust BÖWE Sort software platform for inbound inventory management as well as outbound order fulfillment, tracking and parcel co-mingling. A variety of chute designs are available to sort directly into gaylords, carts and bags or efficiently for palletizing and order fulfillment. The flexible designs are competitively priced, translating into an immediate return on investment by saving labor, saving time and increasing accuracy. BÖWE SYSTEC's unique intralogistics offering comprises furthermore, belt- and roller conveyors, as well as WMS/WES software to offer a turn-key solution for any warehouse or distribution operation.
